

# Green Doors open near you!

OCTOBER 14TH - 15TH, 21ST - 22ND AND 28TH - 29TH

Green Doors is your chance to visit beautiful 'green' homes and ask the owners about their journey to an energy-efficient home.

Discover:

- ? How much money do you save if you have solar panels and a battery?
- ? Does an air source heat pump make your home really warm?
- ? How do you insulate your walls to make your home really cosy – and reduce your energy bills?

Nearly 100 homes will be opening their doors across Shropshire, Herefordshire and Powys. See website for full opening times and dates.
